FRONTEND DEVELOPER | UX/UI DESIGNER

Seasoned Frontend developer / UX/UI designer passionate about blending design and development. Strong leadership skills, creative team management, and branding consistency in digital and print media. Looking for a role that allows me to flex my creative muscle while giving me a place to further my development skills.

WORK EXPERIENCE

General Assembly - Atlanta, USA (Fullstack Software Engineer Immersive Fellow) - Jan. '21 - May '21

During my time at General Assembly, I created the following capstone projects:

- **Game of Phones** – A fully functional chat app React (Web Socket)
- **My Scuba Site** – A side project for scuba diving lovers MERN Stack
- **My Private Blog** – A food blog where our family can share recipes Node, MongoDB, Express
- **Dev Quiz Game** – A quiz game that tests HTML, CSS, and JavaScript skills SASS and JavaScript

Helium Services - Atlanta, USA (Frontend Developer | UX/UI Designer) - Jan. '20 - Jan. '21

- Frontend development and design from concept through to final app deployment
- Asses all UX and UI designs for technical feasibility
- Develop wireframes and mockups for clients
- Create style guides and branding rules for all designs
- Collaborated with 10 member development team to implement new feature development

Polar Notion - Atlanta, USA (Frontend Developer) - Jan. '17 - Jan. '20

- Frontend development and design from concept through to final app deployment
- Review fellow developers code for quality and consistency
- Check all UX and UI designs for technical feasibility and Agile and Scrum principles
- Collaborated with sales & development team (15 member team) to implement feature development
- Write technical copy for agency projects and blog
- Onboard and mentor new design and development apprentices

Global Teaching Adventures - Thailand (Design Director) - May '05 - Dec. '16

- Lead in the design and development of all projects
- Present design concepts to the project stakeholders for review and feedback
- Oversee the efficient use of monthly production budgets of approximately \$50,000
- Development of new Asian markets including Cambodia, Myanmar, Taiwan, and China

Index Multimedia - Thailand (Art Director - Asia-Pacific) - Jan. '01 - April '05

- Developed numerous marketing collateral for all partners in Asia-Pacific
- Preparing and presenting lo-fi mockups to internal teams and key stakeholders
- Consulted with global partners on the most appropriate design options
- Supervise all design presentations and artwork for Asia-Pacific
- Establish and develop new markets in India, Malaysia, Vietnam, Singapore, and Australia
